1. Releases

Version	Date	Name	Description
0.5	12-May-2010	flexiblejdbcrealm-0.5.jar	Glassfish V2.1 support. Several bugfixes and minor features. More tests.
0.4	7-Feb-2010	flexiblejdbcrealm-0.4.jar	Improved logging and improved internal design.
0.3	15-Feb-2009	flexiblejdbcrealm-0.3.jar	Bug fixes.
0.2	6-Dec-2008	flexiblejdbcrealm-0.2.jar	Extension with user-specific password seeding as an option.
0.1	29-Jan-2008	flexiblejdbcrealm-0.1.jar	Initial version that supports plain passwords and MD5 hex encoding

2. Development snapshots

Download the [snapshot](#).

The subversion repository is at <https://wamblee.org/svn/public/glassfish/flexiblejdbcrealm>. You can point your browser or subversion client at this URL to obtain read-only access. Browsing the history of the project is also possible at [this](#) location.

3. Bug and change tracking

Bug and change tracking has not been set up. Perhaps I am just being optimistic that there are not that many bugs in it.
